

Sloan-Hendrix

Workforce Education Instructors

Agriculture - Mason Hudson

Business Education - Lisa Holland

Computer Technology - Russ Griffin

Health Sciences - Kelly McCormic

Student Activities and Course Work

All departments have active student organizations: FFA, FBLA, and HOSA. These student organizations perform various community service activities and participate in their respective competitive events on the district and state level. The agriculture department has an active livestock show team.

Students in the business department have produced podcasts, lipdubs, and various school videos as part of their curriculum. Most of these can be viewed on the school website: <http://shsd.k12.ar.us/>.

Show Team members enjoy some down time at the county fair.

Core Requirements (Units of Credit)

Human Anatomy & Physiology (1)

Introduction to Medical Professions (.5)

Elective From Department (1.5)

Medical professions students participate in a job shadowing day through UAMS.

Arkansas Department of Career Education

Arkansas Career and Technical Education (CTE) has adopted a bold new national vision for career and technical education. This vision was developed by the National Association of State Directors of the Career and Technical Education Consortium (NASDCTEc) to emphasize the critical role that CTE plays in our nation's educational advancement and economic competitiveness. The theme for this new vision is "Reflect...Transform...Lead." It is based on the following five principles:

CTE is critical to ensuring that the United States leads in global competitiveness.

CTE prepares students to succeed in further education and careers.

CTE is a results-driven system that demonstrates a positive return on investment.

CTE is delivered through comprehensive programs of study aligned to The National Career Cluster framework.

CTE actively partners with employers to design and provide high-quality, dynamic programs.

This new vision for CTE charts an innovative and challenging path to ensure CTE will provide the education and training necessary to prepare the workforce for a global economy. Arkansas Career and Technical Education embraces this new vision and the principles on which it is based. Through strong CTE programs, our state and our nation are developing our most valuable resource—our people. The technical knowledge, workplace skills, and real-world experience gained through CTE prepare our current and future workforce for the high-skill, high-wage, high-demand careers so vital in today's economy.

MISSION STATEMENT

The Arkansas Department of Career Education (ACE) has the mission of providing leadership and contributing resources to serve the diverse and changing career educational needs of Arkansas youth, adults, and persons living with disabilities.

The FFA parliamentary procedure team performs for the judges at district competition.
