

Gifted and Talented Evaluations for 2015-2106

Five informal interviews were given in the 2015-2106 year. Interviews were taken from the superintendent, elementary/middle school counselor, and three parents. The superintendent was very pleased with the GT program. He was very excited about our first Odyssey of the Mind team placing fourth at regionals and receiving the OMER Award at state. He agrees that the gt program is meeting the needs of the students.

The counselor and I discussed the program options that were available for the students. Discussions were to update the GT pamphlet to include Odyssey of the Mind and Business expo. She stated that she was happy with the program and that it continues to grow. She feels like the program goes above and beyond to meet the needs of the gifted students.

The three parents that I talked to wanted to know the Identification Process. They wanted their child tested in the Fall and wanted me to go through all the steps that were involved. They also asked about GT programs that were available if their children did not get in GT. We discussed activities like Odyssey of the Mind, business expo, quiz bowl and chess.
