

The health of our students is very important to us at Sloan-Hendrix. Due to an increase in the flu cases in our school, I cannot stress enough the importance of keeping your child home and taking them to see their physician should they have any symptoms such as: fever, body aches, headache and fatigue to name a few. The student may return to school once they have been fever free **without medication** for 24 hours or when they have been cleared by a physician. Our staff is encouraging frequent hand washing and there is hand sanitizer available in the offices, cafeteria, and classrooms.

If you have any questions, I can be contacted at 870-869-2101.

Mikka Jones, RN

Sloan-Hendrix School Nurse
